

CAPITAL PROJECTS/INFRASTRUCTURE: LARGE CITY

West Palm Beach Community Redevelopment Agency The Clematis Streetscape Project

For more information: ajustice@wpb.org

With a rich history beginning in 1894, Clematis Street is the most iconic street in the city. To invigorate the street and advance efforts to attract new businesses, the street was transformed with modern infrastructure improvements and vibrant design elements that improved the experience and quality of life for residents, businesses and visitors. The project began with the 300 block as a pilot to guide the future design of the street, followed by the 100 and 200 blocks. Extensive public input led to a curbsless design of the street featuring large shade trees, wider pedestrian-friendly sidewalks and narrower travel lanes.
